FEATURED FINTECH & SOFTWARE PROJECTS

Personal Portfolio & FinTech Hub (fintech-cyan.vercel.app)

- Designed and developed a responsive web application highlighting the convergence of modern banking and automated full-stack applications.
- Implemented reusable components using React and styled with Bootstrap to achieve a dark/light mode theme matching modern FinTech layouts.
- Managed code versioning using advanced Git practices and continuous deployment integration on Vercel.

AI-Powered Collaborative Platform (Capstone Project)

- Built a full-stack Q&A; application integrating a robust relational database (MySQL) and secure backend user authentication.
- Engineered smart endpoints leveraging AI integrations to automate knowledge categorization and response workflows.

PROFESSIONAL BANKING EXPERIENCE

Commercial Bank / Financial Institution | Ethiopia

Assistant Manager, Customer Service & Operations / Various Banking Positions | 2018 – Present (8 Years)

- Oversee comprehensive branch operations, ensuring peak financial integrity, accuracy in auditing, and absolute compliance with regulatory mandates.
- Manage local customer service portfolios, resolving sophisticated financial challenges while cultivating premier client retention benchmarks.
- Championed workflow updates that bridge branch operational workflows with foundational secure digital financial parameters.
